Guilford Dental Access Program

A Service of Guilford Adult Health, Inc.

www.guilfordccn.org

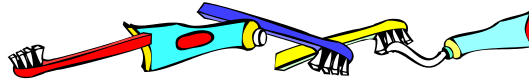

Guilford Dental Access Program

The Guilford Dental Access Program and the Guilford Community Care Network are under the umbrella of Guilford Adult Health, Inc. Guilford Dental Access provides dental services to uninsured Guilford County residents who are enrolled in the Guilford Community Care Network. Services will be limited to comprehensive examinations, extractions, fillings, pain management and some minor restorative care. In order to qualify for services, patients will be referred by Guilford Community Care Network (GCCN) Safety Net Organizations that already provide medical care to residents with incomes between 0% and 200% of the federal poverty level. Guilford Dental Access relies on the eligibility screening services of the GCCN.

Mission Statement

The Guilford Dental Access Program mission is to provide accessible, affordable and quality dental services to Guilford County, North Carolina residents with incomes between 0% and 200% of the federal poverty level.

Patients are seen by appointment only and are referred by their Physician. Walk-ins are not accepted. The Guilford Dental Access Program will see patients 18 years of age and older.

Patients must be exempt from the Affordable Care Act Health Insurance Marketplace in order to enroll into the GCCN.

The Angela "Angie" Ellison Adult Dental Volunteer Access Program

On May 27, 2011, the name of the adult dental volunteer program was changed to the Angela "Angie" Ellison Adult Dental Volunteer Program to honor the long standing commitment for one of the community's beacons of light and champions for uninsured access to dental care. Guilford Adult Health, Inc. Volunteer Adult Dental Access Program operates three evenings a week: Tuesday and Thursday (Greensboro) and Wednesday (High Point). Over 60 local dentists have volunteered their services to County residents since the program began. Patients arrive at 4:30pm for all evening clinics.
