GCCN IS A SAFETY NET PROGRAM. WHAT IS A SAFETY NET?

- The Institute of Medicine defines the safety net as: “...Providers that organize and deliver a significant level of health care and other related services to uninsured, Medicaid, and other vulnerable patients.”
- 30 Core Carolina (NC & SC) Safety Net providers rely heavily on federal, state, and local grants and other subsidies to provide care for the indigent. Guilford County’s safety net, Guilford Community Care Network, is comprised of an array of provider organizations.
